Home repaint checklist

Walk the rooms before you ask for a price. A few decisions now make it much easier to compare estimates and live in the house while the work happens.

Walk the rooms

- ☐ Write down each room and mark walls, ceilings, doors, frames and baseboards separately.
- ☐ Count door faces. A hall-facing door can be included while the bedroom side stays as it is.
- ☐ Point out patched holes, worn corners, stains or a finish change during the walkthrough.

Choose what to protect

- ☐ Flag furniture that must stay, fragile pieces and surfaces that should keep their existing finish.
- ☐ Agree who moves furniture, removes pictures and handles curtains or wall-mounted items.
- ☐ Set aside a spot for labelled colour samples and keep a record of the room, surface and sheen.

Agree on the sequence

- ☐ Pick the first room and one room that needs to stay usable throughout the job.
- ☐ Give the painter any move-in, elevator or delivery dates and agree on entry and parking.
- ☐ Before work starts, confirm the written scope, the walkthrough contact and the room handback plan.

Walkthrough notes

Rooms to tackle first, surfaces to leave alone, dates to work around
